Our Commitment to Sustainability

At Aura Hair & Skin, we're passionate about not only caring for your hair and skin, but also caring for our planet. That's why we are proud members of the **Green Salon Collective** — a pioneering initiative that helps salons recycle and repurpose up to 95% of their waste.

Through this scheme, items that would usually end up in landfill — such as hair clippings, foils and colour tubes — are given a new life. For example:

- Hair can be used to clean up oil spills and create compost.
- Foil & metals are recycled, reducing environmental impact.
- Chemical waste is disposed of responsibly.

To support this, we add a small, optional £1 "Green Fee" to every cutting and colour service bill. This contribution goes towards the Green Salon Collective and ensures your salon visit is as sustainable as possible.

We want to reassure you that this is completely optional — if you would prefer not to contribute, simply let a member of our team know and the fee will be removed, no questions asked.

Thank you for helping us make beauty more sustainable, one appointment at a time.
